

Idea, concept, evolution, desing, technology,
materials and most important of all, craftsman's hands
are the secrets of the creation of
these unique instruments

Our objetctive is to construct unique
and personal instruments,
combining perfection in the desing with the skill
of the master craftsman

In the **Stomvi** instruments we have the tools at our
disposal to cover a full range of acoustic reponse.
The broad range includes instruments
to satisfy each of the exacting requeriments of students,
professionals and maestros

HONIBA S.A. (1984)

Company dedicated to the manufacture and sale of Brass Musical Instruments under the brand name STOMVI.

VICENTE HONORATO IBAÑEZ (1952)

PRESIDENT

At the age of 28, he founded his own Business devoted to the manufacture of Fine Jewelry, and at age 30 he embarked on his new project -the manufacture of brass musical instruments- motivated by the support of great Professionals who backed his innovative ideas.

From the start, Vicente Honorato put to work his in-depth knowledge of Jewelry-making to develop the artisanal production process of Stomvi instruments – a story which mirrors a similar chain of events that took place in the 16th and 17th centuries in Nuremberg, where the musical Instrument workshops were set up by the Silversmiths and Jewelers of the age.

Those who know Vicente Honorato have said that he has been blessed with a fine musical ear and a great sensitivity for perceiving and appreciating the best intonation, in addition to being capable of adapting his instruments to the sometimes ambiguous expectations and suggestions of the most prestigious artists. At his manufacturing centre in the town of Xirivella, Valencia (Spain), V. Honorato welcomes great musical artists on a daily basis, with whom he shares ideas and opinions as part of the ambitious Stomvi project.

The Spanish Brass Luur Metalls Brass quintet has its study and rehearsal area in these buildings. The quintet's members represent, without a doubt, the most important mentors overseeing the excellent qualities of the instruments manufactured at Stomvi.

Titán

TITÁN

Titán Bb Trumpet

Model #5320

Bore ML
 Bells #25 Bellflex or 27 Bellflex (# 27 Standard)
 Silverplated
 Gold plated finish upon request
 Round main tuning slide & square main luning slide
 Other combinations upon request
 (bore, bell, leadpipe...)

Dynassound

Know the new creation of Stomvi wich help
you to improve the performance of your
Stomvi instrument.

Classic mouthpieces

Stomvi's idea has revolutionized the concept of the mouthpiece and has created the definitive means for every player to solve their problems with an accurate method appropriated for every individual. Stomvi mouthpieces offer independent and adaptable solutions without prejudicing the original mouthpieces, after having chosen the most suitable rim for our labial shape
